EXPERIENCE

Frontend Developer | BeFunky.com | Nov 2022 – Sep 2026 · Portland, OR (Remote)

- Built and maintained features across BeFunky's photo editor, graphic designer, collage maker, and marketing site, working closely with design, product, content, and back-end teams.
- Translated Figma designs into responsive, accessible UI components, independently defining behavior across the full range of screen widths and testing on phones, tablets, and desktop browsers with LambdaTest.
- Rebuilt the Pro/Plus pricing page and upgrade modal, with CMS-driven (Prismic) components, tier-specific pricing and buttons, and responsive layouts for desktop, tablet, and mobile.
- Built Google Drive and Google Photos integrations for opening and saving files, including sign-in, nested and shared folders, caching, and mobile support.
- Initiated and led an AI-assisted bug audit and Jira-to-GitHub migration, using Codex to triage the backlog with human review before any change.
- Migrated 7+ legacy UI areas (Project Manager, Image Manager, Graphic Library, and more) to Lit with React-style hooks, and wrote the team's migration guide.
- Debugged tricky production issues across Safari, Chrome, Firefox, iOS, and Android, including Apple Pencil support, IndexedDB storage failures, and errors reported in Sentry.
- Improved accessibility and translations across 12 languages, including tools that flag missing translations and accessibility issues at build time.

English Language Development Teacher | Reynolds High School | Sept 2015 – Jun 2022 · Portland, OR

- Taught English to multilingual students at all levels, adapting lessons for each learner's needs.
- Managed the school's learning management system and trained colleagues on online classroom design.

Graphic Designer | Freelance

- Logos, posters, and brochures for local theaters and nonprofits (Illustrator, Photoshop, InDesign).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML, CSS/Sass

Frontend: React, Lit / Web Components, Haunted (React-style hooks), Redux, Accessibility (a11y), Responsive Design

Browser & Platform: IndexedDB / Web Storage, Pointer & Clipboard APIs, Cross-browser Debugging

Tools & Workflow: Git/GitHub, GitHub Actions, Node.js/npm, Gulp, LambdaTest, Sentry, Mixpanel, Prismic CMS, WordPress, Figma, Jira/Confluence, AI tools (Codex, Claude Code)

Also Experienced With: Flask, Express, PostgreSQL, MongoDB, Firebase, Adobe Suite

EDUCATION

Coding Temple | Software Engineering Certificate | 2022

SheCodes | Certificate | 2021–2022

Portland State University | Master of Education (M.Ed.)

University of Oregon | Bachelor of Science in Geography
